DEEPLY GRATEFUL

I am deeply grateful to the people of South Carolina for the magnificent vote given me on Tuesday. In making my race for lieutenant governor, I took an outspoken stand for clean politics and good government in South Carolina, and from every stump I proclaimed the concept of law and order. I regard my hand-to-hand vote as an endorsement of that position.

ANDERSON MAN TELLS OF WASHINGTON TRIP

W. H. GLENN GIVES IDEA OF COTTON DISCUSSION

FARMERS' PROBLEM

Upon the Individual Largely Depends the Task of Handling the Cotton Situation

(From Saturday's Daily) Returning to Anderson after attending the cotton conference in Washington, W. H. Glenn says that the people of the South should unite their energies in solving the cotton question.

Mr. Glenn was appointed by Senator Tillman as the farmer representative from this state to the convention called by Mr. McAdoo and the following interview which he gave to The Intelligencer yesterday is of more than ordinary interest. Mr. Glenn said:

"Having been present at the cotton conference called by Secretary McAdoo in Washington, I desire to give to the public generally, and the farmers particularly, the benefit of information gained, and some side lights on the situation.

"This conference was called by Secretary McAdoo to get views from different sections of the country and suggestions as to how best to meet conditions. From the best advice obtained we will have from three to four million bales of cotton, surplus accruing from a crop of from thirteen and a half to fourteen million.

"How best to handle this surplus is the key note, and the immediate future of the cotton raiser is going to be vitally affected by its solution.

"In this connection, let me say, the administration is anxious to aid all legitimate business and is amply able to do so.

"While these fortunate conditions exist there is work for all, and plenty of it. It will be very unfortunate if we become panic stricken and rush our cotton to market regardless of price. In doing so we not only sacrifice our money crop, but will render the problem of government aid more complicated and harder to obtain.

"The portion of the crop not offered for market should be so warehoused and insured as to become an attractive asset in increasing our debt-paying facilities. On all cotton handled this way we have bright prospects of obtaining from thirty-five to forty dollars per bale at six per cent interest.

"On the individual farmer himself more than any one else, rests the responsibility of shaping the ultimate success or failure of obtaining that relief so earnestly desired and wisely offered by the government.

"Statistics as to our farming operations are energetically and correctly kept up with by the agricultural department. The amount of lands sown to wheat and oats this fall and the preparation and fertilization of same will have much to do in convincing those who want to help us that we are willing first to help ourselves.

"Finally, don't lose sight of this condition: We are going to have a surplus of cotton which will be a menace to gold prices as long as it exists. How is the quickest and best way to get rid of it? Sow grain, sow more grain and then some, not forgetting or neglecting thorough preparation and liberal fertilization.

FIRST MASS HELD TWO TO FOLLOW

Services in Sistine Chapel For Repose of the Soul of Pope Pius Have Begun

Rome, Aug. 28.—(Via Paris 6:43 p.m.)—The first of the three Sistine masses to be held in the Sistine chapel for the repose of the soul of the late Pope Pius X was celebrated this morning by Cardinals Vicenszo and Vannutelli. Final absolution was given by Cardinals Falconio, Agliardi, Cassetta and de La.

Around the catafalque, which is 33 feet high, surmounted by the triple crown and surrounded by hundreds of candles, sat nearly fifty cardinals. One of these was Cardinal Farley, of New York, and on a stool at his feet sat his secretary, the Rev. Thomas G. Carroll. Behind the cardinals were the patriarch, archbishops, Monsignors and the whole vatican court.

The United States was represented by Monsignor Patrick J. Hayes, chancellor of the archdiocese of New York; Monsignor John Edwards, vicar general of the archdiocese of New York; Monsignor Nevin F. Fisher, of Philadelphia, and Monsignor Charles A. O'Hern, vice-rector of the Arolian College in Rome.

The Sistine Choir was conducted by its director, Monsignor Perosi.

CLEMSON COLLEGE TO COME TO ANDERSON?

MAY BE ANNEXED TO THIS COUNTY

PROSPECT IS GOOD

Chamber of Commerce Directors Yesterday Discussed Various Progressive Measures

(From Saturday's Daily) The regular monthly meeting of the Board of Directors of the Anderson Chamber of Commerce was held last evening. Vice-president, T. Frank Watkins presiding in the absence of Chairman J. D. Hammett, who was out of the city.

The Intelligencer prints today elsewhere a copy of the monthly report submitted to the organization by the secretary, which gives in detail the main activities of the work of the organization during the past several months.

The board officially endorsed the plan to inaugurate the work of the Domestic Economics Demonstration work, including the organization of Tomato Girls Clubs in the school districts of Anderson county, and gave the secretary authority to assist in raising a fund among the schools for the work, the same to be done under the leadership of Miss Mary E. Frazer, state superintendent of Rural Life work, with headquarters at Winthrop college at Rock Hill.

This work will probably be undertaken shortly. If the campaign to be begun proves successful it is hoped to inaugurate this work in at least 20 rural school districts on or about the time of the opening of the 1914-15 school session. This work will be partially financed by Superintendent J. B. Felton, Anderson county, the State School Superintendent of Education, and also men from among the rural schools. Under the efficient and painstaking management of Miss Frazer, this work will prove very successful and of especial benefit. It will be the first time that this great work will have been begun officially in Anderson county.

Anderson county's representative in the State exhibit at the Panama Pacific exposition at San Francisco was considered, and it is understood that present plans under way, as officially reported to the board, will take care of the exposition. In fact a representative of the exposition is due in Anderson today to confer with A. S. Farmer, state commissioner of the Panama Exposition and representative of the agricultural and industrial interests of the city and county.

The proposed annexation of Clemson college to Anderson county was considered by the board, and action at the present time deferred. The question, it was explained, depended upon a variety of circumstances, yet to be developed.

The board seemed to be well pleased with conditions in Anderson and with the work of organization. Conditions in the city and county are very good, and Anderson county is on the verge of a great period of prosperity.

BARBED WIRE DID NOT WORRY THEM

Police Had Busy Time Trying to Bring Crap Shooters In and Then Let One Get Away

The police officers "smashed a rail" last night when it was reported to them that several negroes were gathered at the home of Frank Johnson on Daniels street. Officers Aiken, Gunter, Sanders and Stewart set out for Daniels street and when they arrived there they found a "game of 'skin' going on in earnest. The officers made a sudden swoop into the room and it is said that negroes scattered in every direction. One officer said that he distinctly saw a negro carry an entire sash out of a window with him, and notwithstanding the fact that there was a heavy barbed wire fence just outside the windows, every negro took a jump. The officers succeeded in catching four of the gamblers while four others got away but the policemen say that the four at large are so badly cut up from the contact with the barbed wire that they will yet be caught.

The officers started for town with their prisoners and as they passed a meat market on Main street they observed a negro woman on the floor of the place, dead drunk. She too was taken in charge and carried to the city hall.

While the officers were getting the cells assigned for their prisoners they neglected their captives, and Bunk Black, one member of the party made a successful break for liberty. He got out of the chief's office in the city hall into the street before the officers knew that he was gone, and succeeded in making a get-away, but the officers say that they will have little difficulty in apprehending him today.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theodor's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what Black-Draught has done for me."

Theodor's Black-Draught has been found a very valuable medicine for derangement of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. "I WISH you would get a glazier to come up and set that pane of glass the children broke yesterday. The house is as cold as a barn," said the suburban housewife, as her husband was about to go to business.
